Education

Walchand Institute of Technology, Solapur <i>B.Tech. in Computer Science and Engineering, Minor in EnTc, GPA: 9.65</i>	Solapur Aug 2023 — Aug 2027
Sarosh Junior College, Aurangabad <i>12th HSC, GPA: 92%</i>	Aurangabad Jul 2020 — Jun 2022
Preetisudhaji International School, Rahata <i>10th CBSE, GPA: 91%</i>	Ahmednagar Jun 2019 — Jun 2020

Projects

AI Powered Swachatta Monitor | *HTML, CSS, Javascript, Flutter*

- Developed web application and React dashboard to monitor office cleanliness and green practices, reducing manual inspection time by ~40% and accelerating issue resolution via OpenCV real-time image analysis and Firebase-backed authentication/real-time alerts

Crowdsourced Civic Issue Reporting System | *Flutter, Firebase, React, APIs*

- Developed a Flutter civic-issue reporting app that increased citizen submissions by 50% and reduced triage time 35% by implementing photo upload, geotagging, real-time tracking, Firebase Auth/Firestore with role-based access, Google Maps visualization, and push notifications

Experience

Software Development Intern <i>Bluestock Fintech</i>	May 2025 — Jun 2025 <i>Remote</i>
Developed a web-based IPO dashboard using React.js, delivering real-time and structured IPO information through a responsive and user-friendly interface. Integrated REST APIs to display financial data effectively, implemented clear data visualizations and collaborated with the team to debug UI issues, optimize performance, and deliver features on schedule.	

Certifications

Programming with Generative AI <i>NPTEL</i>	2025
ML Foundation <i>Infosys</i>	2025
Python Foundation <i>Infosys</i>	2024

Skills

Programming Languages: C, C / C++, Python, Java, Dart
Machine Learning & Data Science: Feature Engineering, Model Evaluation (RMSE, Accuracy, etc.), Kaggle Competitions, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Kaggle Competitions
Tools & Technologies: Git & GitHub, VS Code, Jupyter Notebook, Postman, Anaconda, Linux / Windows
Databases: MySQL, SQLite (Flutter), Firebase, MogoDB, PostgreSQL
Frontend Development: HTML, CSS, RESTful APIs, JSON Handling, React.js, Responsive UI Design, JavaScript
Mobile App Development: Flutter, Dart, Cross-Platform App Development, Firebase Integration, API Integration
DevOps & Cloud Basics: Docker, Containerization, CI/CD Fundamentals, Github
Backend Development: Node.js, Express.js, RESTful APIs, JSON, Authentication & Authorization (JWT, Firebase Auth)
